EXPERIENCE

Yuik Design

UI / UX Design, Art Direction as a Freelance Designer

Currently working as a UI/UX designer for apps, campaign LP, banners, etc., for the SaaS service " Air-Regi Handy Self-Order" and the travel / tourism service "Jalan net" , the outing app "Holiday". I also produce novelties for events and paper media. I engaged in the desire to improve the convenience of people's daily lives with the power of design and to help society.

Mediba Inc.

UI Design as a contract Designer

I was as the main designer of the large-scale project "au web portal" with 40 million users. In an Agile Development environment, I collaborated with engineers with KPI for each sprint, focusing on creating the best UX, in a timely fashion.

GSB Inc.

Art Director / Chief Designer

I was responsible for designing many sites and LPs for Rakuten EC site. I learned the skills to speedily carry out a consistent flow from planning to direction, interaction with clients, production process to design delivery. I also gained experience in setting up a design team.

Van Craft Inc.

Web Designer

I worked as a member of the design team for "the Kids City" project of Ministry of Education, Culture, Sports, Science and Technology (MEXT). This project required adhering to the most minute details. Although the project was demanding, I gained the knowledge of creating materials for presentations and the experience of managing the progress of the design team.

Phalanx Inc.

Web Designer

I was responsible for designing corporate websites and produced numerous campaign websites and LP. In addition, I was selected as a designer for the development team of Adobe Flex--an Adobe partner company. I used MXML to create a dynamic fitting room system. It was used for a demonstration at the Adobe Flex conference. I created the design specifications and requirements specifications for this system with the System Engineer.

Rabbit Creative Point Co., Ltd.

Graphic Designer

As a graphic designer, I designed magazines, books, advertising designs, logos. I also gained experience in ordering illustrations, coordinating with photographers, and meeting with clients. I think that this is where I built the foundation for a full-fledged graphic designer.
